# Career Interest Assignment Using PowerPoint

You will create an appropriate career interest slide presentation using the PowerPoint function of Office 2000.

1. Requirements
   - Minimum of 7 slides maximum of 10 slides in the presentation.
   - Refer to at least three (3) different resources found on the Internet using their URL's on one of the slides.
   - Use at least five (5) different slide transitions however all slides must have a transition with sounds between each slide transition (type of sound is your choice between the transitions).
   - Use at least one (1) picture/graphic and two (2) custom animation motions within each slide.  You must add at least one (1) sound to the custom animations created.  NOTE: Be careful not to overwhelm the presentation with too much sound distraction.
2. Suggested format for presentation
   - Title Slide
   - Why This Choice?
   - Pro's & Con's about the profession
   - Educational Requirements
   - Professional Requirements
   - Job Outlook
   - Benefits/Advancements
   - Sources (the URL's of the internet sources for information)
   - Summary (end slide)

Search the net for job/career interest use google.com or yahoo.com or any other search engine of your choice to find information.  Start by opening new PowerPoint presentation title slide (you can choose any design template).  Remember to use slide sorter view if you want to move or change the slides around.

Your grade will be dependent on how well you followed the requirements when you show the presentation to your teacher. DO NOT PRINT your presentation, show it to your teacher.
